

TO POSTPONE OLD AGE.
The latest theory is to apply electricity to the base of the brain. The hardening of the arteries—the first symptom—is followed by a crumbling away of the brain cells. This process produces the mental characteristics of old age. Not alone does this treatment restore the feelings of youth, but produces the appearance of it. While hundreds of experiments have been presented, there is but one way of prolonging youth, and that is by the preservation of health. For this purpose, and for the cure of constipation, indigestion, dyspepsia, liver and kidney disorders, Hostetter's Stomach Bitters was placed before the public over fifty years ago. Money cannot buy a better remedy. Try it, and you will be convinced.

It Inspired Pessimism.
Askit—I suppose Henpeck was glad when his salary was raised, was he not?
Tellit—Not much. He said his wife would take advantage of that to increase their expenses by twice as much as the raise.—Baltimore American.

THE BEST PLASTER.
A piece of flannel dampened with Chamberlain's Pain Balm and bound to the affected parts is superior to any plaster. When troubled with lame back or pains in the side or chest, give it a trial and you are certain to be more than pleased with the prompt relief which it affords. Pain Balm also cures rheumatism. One application gives relief. For sale by Ireland.

The Use of It.

A MELON GROWERS' ASSOCIATION.

It Has Been Organized by the Farmers of Chaves County.
(Roswell Register.)

A meeting of farmers and gardeners interested in melon growing—particularly cantaloupes—was held at the office of the Wells-Fargo Express Company at Roswell.

The meeting was called to order and W. M. Farmer was made temporary chairman and I. E. Thompson temporary secretary. Mr. Farmer stated that the object of the meeting was to organize the farmers of Chaves County into an association for the purpose of encouraging the industry of growing cantaloupes, procuring favorable shipping rates and facilities, and a good market, and handling the whole business in an economical manner so as to secure the best returns possible. He called attention to the well-known fact that the growers could not operate successfully, attempting to market their crops independently of each other, and that the only plan that can be made successful is to organize properly and pool their efforts, thus curtailing expense, uniting their efforts and acting as one body. The first question discussed was the number of acres that would probably be planted the coming season. A list made after a brief canvass indicated that something like 200 acres would probably be planted, if satisfactory guarantees as to a sure market and reasonable shipping rates can be obtained. An inquiry was made as to the probable cost of the best seed. Mr. Baldwin stated that it would cost 75 cents per pound delivered at Roswell. It was agreed that all should use the same kind of seed in order to insure a uniform crop as nearly as possible, and that the very best seed should be procured, as it is important that the cantaloupes raised here shall be as good as the best raised anywhere. Several of the farmers present stated that they had had trouble with impure seed.

In the discussion which followed as to the proposed method of handling it was agreed that all expenses should be prorated as closely as possible. A packing shed is to be built and an experienced packer will have charge of the work of packing the crates. All members of the association are to deliver their crops at the packing sheds and are to be charged with the actual cost of packing and shipping, and no more. A rough estimate of the cost of packing placed it at about 20 cents per crate—12 cents for crates and 8 cents for packing.

At this juncture, it was suggested that a permanent organization be effected, and a motion that the temporary organization be made the permanent one carried. Mr. Farmer, the chairman, thanked the meeting for the honor conferred, and asked that all members lend a helping hand in every way possible with the work of placing the association upon a sound, paying basis, and reminded them of the fact that without perfect co-operation the movement cannot succeed. Parker Earle suggested that two or three other men be selected as members of a board of directors, of which the president and secretary should be ex-officio members. The suggestion was acted upon, and P. H. Boone, George W. Stevens and P. M. King were elected as directors.

Some one inquired about the best method of hauling the cantaloupes to the packing shed, and was told that they should be laid in boxes, about two dozen in each box.

The question of paying for books and stationery came up next, and a motion that a membership fee of 25 cents be charged was carried.

J. R. Christman mentioned the fact that there were a number of farmers in his neighborhood—Orchard Park, eleven miles southeast of Roswell, most of whom would no doubt raise some cantaloupes if a packing shed could be built at their station. He said he felt sure the farmers would be willing to do the grading for a side track or spur to the packing shed. Mr. Christman was asked to ascertain about how many acres of cantaloupes would be planted in that neighborhood and report at the next meeting.

The general trend of all the remarks made was to the effect that every farmer in the county should be encouraged in every way possible to become a member of the association and share in its benefits.

E. A. Cahoon, cashier of the First National Bank, has been made treasurer of the association, and it is the intention to have all funds received for shipments remitted by the commission house selling the crop direct to him and shipper can get the net amount due him by presenting to Mr. Cahoon his account of sale, sent him by the commission house, showing what his cantaloupes sold for and what his share of the expense was.

A GOOD THING.
German Syrup is the special prescription of Dr. A. Boesche, a celebrated German Physician, and is acknowledged to be one of the most fortunate discoveries in Medicine. It quickly cures Coughs, Colds and all Lung troubles of the severest nature, removing, as it does, the cause of the affection and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years, giving satisfaction in every case, which its rapidly increasing sale every season confirms. Two million bottles sold annually. Boesche's German Syrup was introduced in the United States in 1868 and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. Price 75 cts. Men do not like to go to doctors. Nine times out of ten they wait until they are laid flat on their backs before they will consult a physician. There is some reason in this, for when a business man feels out of sorts and goes to a physician, he is often given violent drugs that make him, for a time, unfit for business and really sick.

There is a way of avoiding both extremes—that of neglecting the health and that of taking violent drugs that rack the entire system—it is always to keep on hand a bottle of Dr. Pierce's Golden Medical Discovery. If a man will resort to this great medicine whenever he feels that he is out of sorts and threatened with illness, he may keep in good health. It is the great appetite shaper, blood-maker and flesh-builder. It fills the arteries with the rich, red, tissue-building blood of health. It does not make flabby fat like cod liver oil, but the solid, muscular and nerve tissues of health. It does not make corpulent people more corpulent.

"I want to inform you of a cure effected by Dr. Pierce's medicine," writes Mrs. Nelson Smith, of Mount Vernon, Jefferson Co., Ill. "About six years ago I had griping with brounitis and consumption. In the spring of 1896 my condition became very serious. I had consumption and I coughed day and night, could not lie down at all. Our family doctor said I could not get well. The neighbors came in to see me and get a lady friend recommended Dr. Pierce's medicine. I bought six bottles of his 'Golden Medical Discovery' and Favorite Prescription. After using these medicines, I found I was receiving benefit and continued to use them until I was well. I sleep well, have a splendid appetite, feel well, and believe I am redeemed. I am thankful to God and to Dr. Pierce for these wonderful medicines. I want to add that I am a wonder to my neighbors and friends."

Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, powders and smokes and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c. size. Ely Brothers, 50 Warren St., N.Y.

The Balm gives without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation. With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.

NOGAL MINING DISTRICT.

The Little Nugget Bonded to Denver Parties for \$10,000.

More mining activity exists in the region around Nogal, Lincoln county, now than ever before in the history of the country. J. O. McCoy has resumed work on the Hailstorm lode. The property shows up a body of ore which gives assays as high as \$120 per ton, with copper and silver values, and a test shipment will be made to the El Paso smelter as soon as the ore can be mined. McCoy recently bonded his Little Nugget property in Water canon to Denver parties for \$10,000.

The Bonito Mining and Milling Company, composed of Alamogordo business men, and managed by N. J. Thatcher, of Denver, is in good order now and work is being rapidly pushed on the 500-foot tunnel, which it is expected will cut a lead of gold ore of unusual value. This vein, opened on the surface, gives rich assays, and it is believed that when cut at a depth of 600 feet will show extraordinary high-grade values.

The eastern owners of the Hailto property have started active work on their properties. The lead is well defined and gives splendid gold values. Dr. Rice, manager of the company, states that the concern has plenty of money, and will develop a shipping mine in a short time.

Judge H. C. McDugal, of Kansas City, Mo., and Col. C. G. Comstock, of St. Joseph, are pushing operations on the properties of the Gallinas Mining Company, situated in the Gallinas mountains. One now being mined shows average assays in excess of \$40 per ton, and with the railway running within four miles of the property shipments can be made profitably.
